

Santiago Taher

Full Stack Developer

San Miguel, Buenos Aires, Argentina | santiago_lucas1@hotmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with strong command of Next.js, React.js, Node.js, JavaScript, and TypeScript, specialized in building modern, scalable, and secure end-to-end web applications. Experience leading the development of a complete product — from roadmap definition to architecture, implementation, and deployment — combining product vision with technical execution.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, Go, C#

Frontend: React.js, Next.js (App Router), TailwindCSS, Material UI, Redux Toolkit, HTML5, CSS3

Backend: Node.js, Express.js, Java (Spring Boot), Python, FastAPI, REST APIs, WebSockets, JWT, OAuth2

Databases: PostgreSQL (Supabase), MySQL, MongoDB, BoltDB

DevOps & Tools: Git, CI/CD, Vercel, AWS, Docker (basic), Cron Jobs, Webhooks, API Integration

Software Practices: Clean architecture, RESTful design, Authentication & authorization, UI/UX design, Performance optimization

WORK EXPERIENCE

[Truckers Talent INC](#) · www.truckerstalent.com · Buenos Aires, Argentina (Remote)

Product Manager | Tech Lead | Full Stack Developer

Nov 2025 – Mar 2026 · Full-time

- Led the product roadmap, prioritized features, and coordinated with technical and business stakeholders
- Designed and oversaw the system architecture (Next.js, Node.js, Express, PostgreSQL) and conducted code reviews
- Strengthened system security by improving authentication, authorization, and session management
- Implemented CI/CD pipelines and deployment processes, speeding up delivery of new releases

Full Stack Developer

Mar 2025 – Jun 2025 · Part-time

- Developed the product's first features with Next.js, Node.js, Express, and PostgreSQL, laying the foundation for the architecture

[Zatek Academy](#) · Buenos Aires, Argentina (Remote)

Full Stack Developer

Jun 2025 – Dec 2025 · Part-time

- Developed a full stack educational platform with Next.js and FastAPI
- Implemented REST APIs for user, course, and progress management, with JWT and OAuth2 authentication
- Integrated AWS for file storage and designed the PostgreSQL data model
- Built a gamification system and automatic PDF certificate generation

FREELANCE PROJECTS

Virtual Campus — English Language Institute

institutoeinglesink.com.ar

Freelance Full Stack Developer

- Built a full stack Virtual Campus for an English language institute, with three roles (admin, teacher, student) and endpoint-level permissions, designed for a high volume of users
- Designed the relational data model for students, classrooms, assignments, submissions, payments, report cards, notifications, and messaging
- Implemented a real-time messaging system (live chat) and a notification system linked to assignments, payments, and academic events
- Built a payments and receipts module with status tracking (paid, pending, overdue)
- Integrated Cloudinary for storing submissions, payment receipts, and materials

DOV Auto Parts E-commerce

www.dovrepuestos.com.ar

Freelance Full Stack Developer

- Developed the full platform with Next.js, Node.js, and PostgreSQL (Supabase), integrating Mercado Pago and an order system with payment validation
- Implemented REST APIs, an admin panel, and automatic stock control to prevent duplicate sales
- Built a responsive UI with TailwindCSS and dynamic updates without page reload

Real Estate Web Platform — Marisa Puentes Propiedades

www.marisapuentespropiedades.com.ar

Freelance Full Stack Developer

- Designed and built a full stack real estate platform with Next.js, React.js, TailwindCSS, and Node.js
- Designed the relational database in PostgreSQL and integrated Cloudinary for dynamic image and video management
- Optimized the application for SEO and conversion (CTAs, WhatsApp integration), and deployed to production on Vercel

Other Freelance Projects

- Smartphone E-commerce — cart, Mercado Pago payments (webhooks), admin panel, and cron jobs for stock.
- Real-Time Messaging Platform — chat built with React, Socket.IO, Node.js, and encrypted communications.
- Perfume E-commerce — responsive store with Next.js, TailwindCSS, and Node.js/Express APIs.
- Pastelería Selenita — maintenance of a production e-commerce site (React, Node.js, MySQL).

EDUCATION

Universidad Nacional de General Sarmiento (UNGS)

University Technical Degree in Systems (Tecnatura Universitaria) — Completed, degree certification in progress · Currently pursuing a Bachelor's Degree in Systems (Licenciatura)

- Coursework in programming, data structures, and software development
- Java, Spring Boot, Python, Go, and C#; databases: PostgreSQL, MongoDB, and BoltDB
- Agile methodologies (Scrum), automated testing, and UI/UX fundamentals

UTN — Full Stack Web Development Program

2021 · Duration: 8 months

- Frontend: HTML5, CSS3, JavaScript, Handlebars, React.js
- Backend: Node.js, Express.js; SQL and NoSQL databases (MySQL, MongoDB)
